EXPERIENCE

Senior Software Engineer

BrightEdge Technologies (via Mindfire Solutions)

05/2022 - 01/1970 India

A leading SEO platform that helps businesses improve their online visibility

- Developed an AI-powered recommendation module optimizing H1, H2, title tags, and meta descriptions, significantly enhancing web rankings for enterprise clients
- Designed and built a complex SEO analytics dashboard, integrating users' crawl data into dynamic, customizable charts, enabling real-time data visualization and insights
- Optimized React app performance for large enterprise clients like Walmart & Adobe, reducing page load times from 1 to 2 minutes to 10 seconds, improving UX and engagement
- Integrated RxJS into complex parts of the React application to enhance efficiency, enabling seamless state management and real-time updates
- Led the frontend team in scaling micro-frontend applications to production-ready status, ensuring high performance, scalability, and maintainability
- Built and maintained multiple reusable front-end libraries, significantly accelerating development speed and ensuring code consistency across teams
- Conducted Knowledge Transfer (KT) sessions to onboard new developers and mentored teams on ongoing enhancements and best practices
- Collaborated with cross-functional teams including product managers and backend developers to troubleshoot critical performance issues and deliver seamless user experiences
- Mentored junior engineers, fostered a culture of continuous learning, and motivated the team through knowledge-sharing sessions and architectural reviews

Software Engineer

BrightEdge Technologies (via Mindfire Solutions)

10/2020 - 05/2022 India

A leading SEO platform that helps businesses improve their online visibility

- Developed 'Daily Pulse', a tool providing users with daily SEO health insights and tracking competitor activities
- Integrated scheduled email and in-app notifications, keeping users proactively informed about SEO performance changes and market competition
- Developed a React-based SEO performance dashboard with interactive charts & tables, delivering daily insights
- Designed a reusable chart component with caching, editable data, and real-time updates
- Refactored code to reduce bugs by 40% and improve development efficiency by 30% and tested code through production
- Built complex multi-step forms using React Hook Form, improving validation and reducing form submission errors by 25%

EDUCATION

Bachelor of Technology

Silicon Institute of Technology Bhubaneswar

06/2016 - 05/2020

SUMMARY

A senior software engineering professional with over 5 years of experience in frontend optimization and SEO analytics development, expert in React and TypeScript. Key achievements include reducing page load times by 95% for major clients like Walmart and Adobe, and developing the industry's first Product Grid Reporting, significantly boosting visibility and search rankings. A Senior Full Stack Software Engineer position at Mozn is sought, where expertise in frontend optimization and SEO analytics development will be brought to support Mozn's mission of building institutional analytics knowledge within Saudi Arabia.

KEY ACHIEVEMENTS

Star Performer Of Brightedge

Awarded Star Performer at BrightEdge for 3 consecutive months for outstanding performance, frontend optimizations, and impactful contributions to key projects.

Performance Enhancement Success

Reduced page load times by 95% for enterprise clients, enhancing UX and engagement.

Innovative Dashboard Creation

Developed industry's first Product Grid Reporting, boosting visibility and search rankings.

SKILLS

Frontend

React.js, Next.js, JavaScript, ES6, rxjs, TypeScript, CSS, SASS, MUI v5, Storybook, Bootstrap, jQuery, HTML, Jest

State Management:

React Query, JOTAI, X-State, Zustand

Backend & APIs:

Node.js, Express.js, Python (Flask), MySQL, MongoDB (Beginner), REST APIs, Fast API, PostgreSQL, RESTful API, RDBMS, API Design

Build & DevOps:

NPM, PNPM, Vite, Webpack, Docker (Beginner), Git, Gerrit, CI/CD, React-testing, Jest, GCP

Other Tools

Sentry, Confluence, JIRA, Trello, Bitbucket, logrocket, Grafana
